Ignacego Janickowskiego

Obywatela miasta Krakowa zmarłego d. 26

lipca 1831 r. w wieku lat 41,

Maryannie matce jego zmarłej

dnia 16 października 1831 r. w wieku lat 43

Maryannie ich córce zmarłej d. 11 maja

1825 r. w wieku lat 8.

Najdrożsi Rodzice i siostra Kochana,

Gdyście już powołani przed sąd Pański Pana,

My tutaj jesteśmy w wieku dojrzałości chrześcijańskiej

Prosimy za was Boga, przebudzić was,

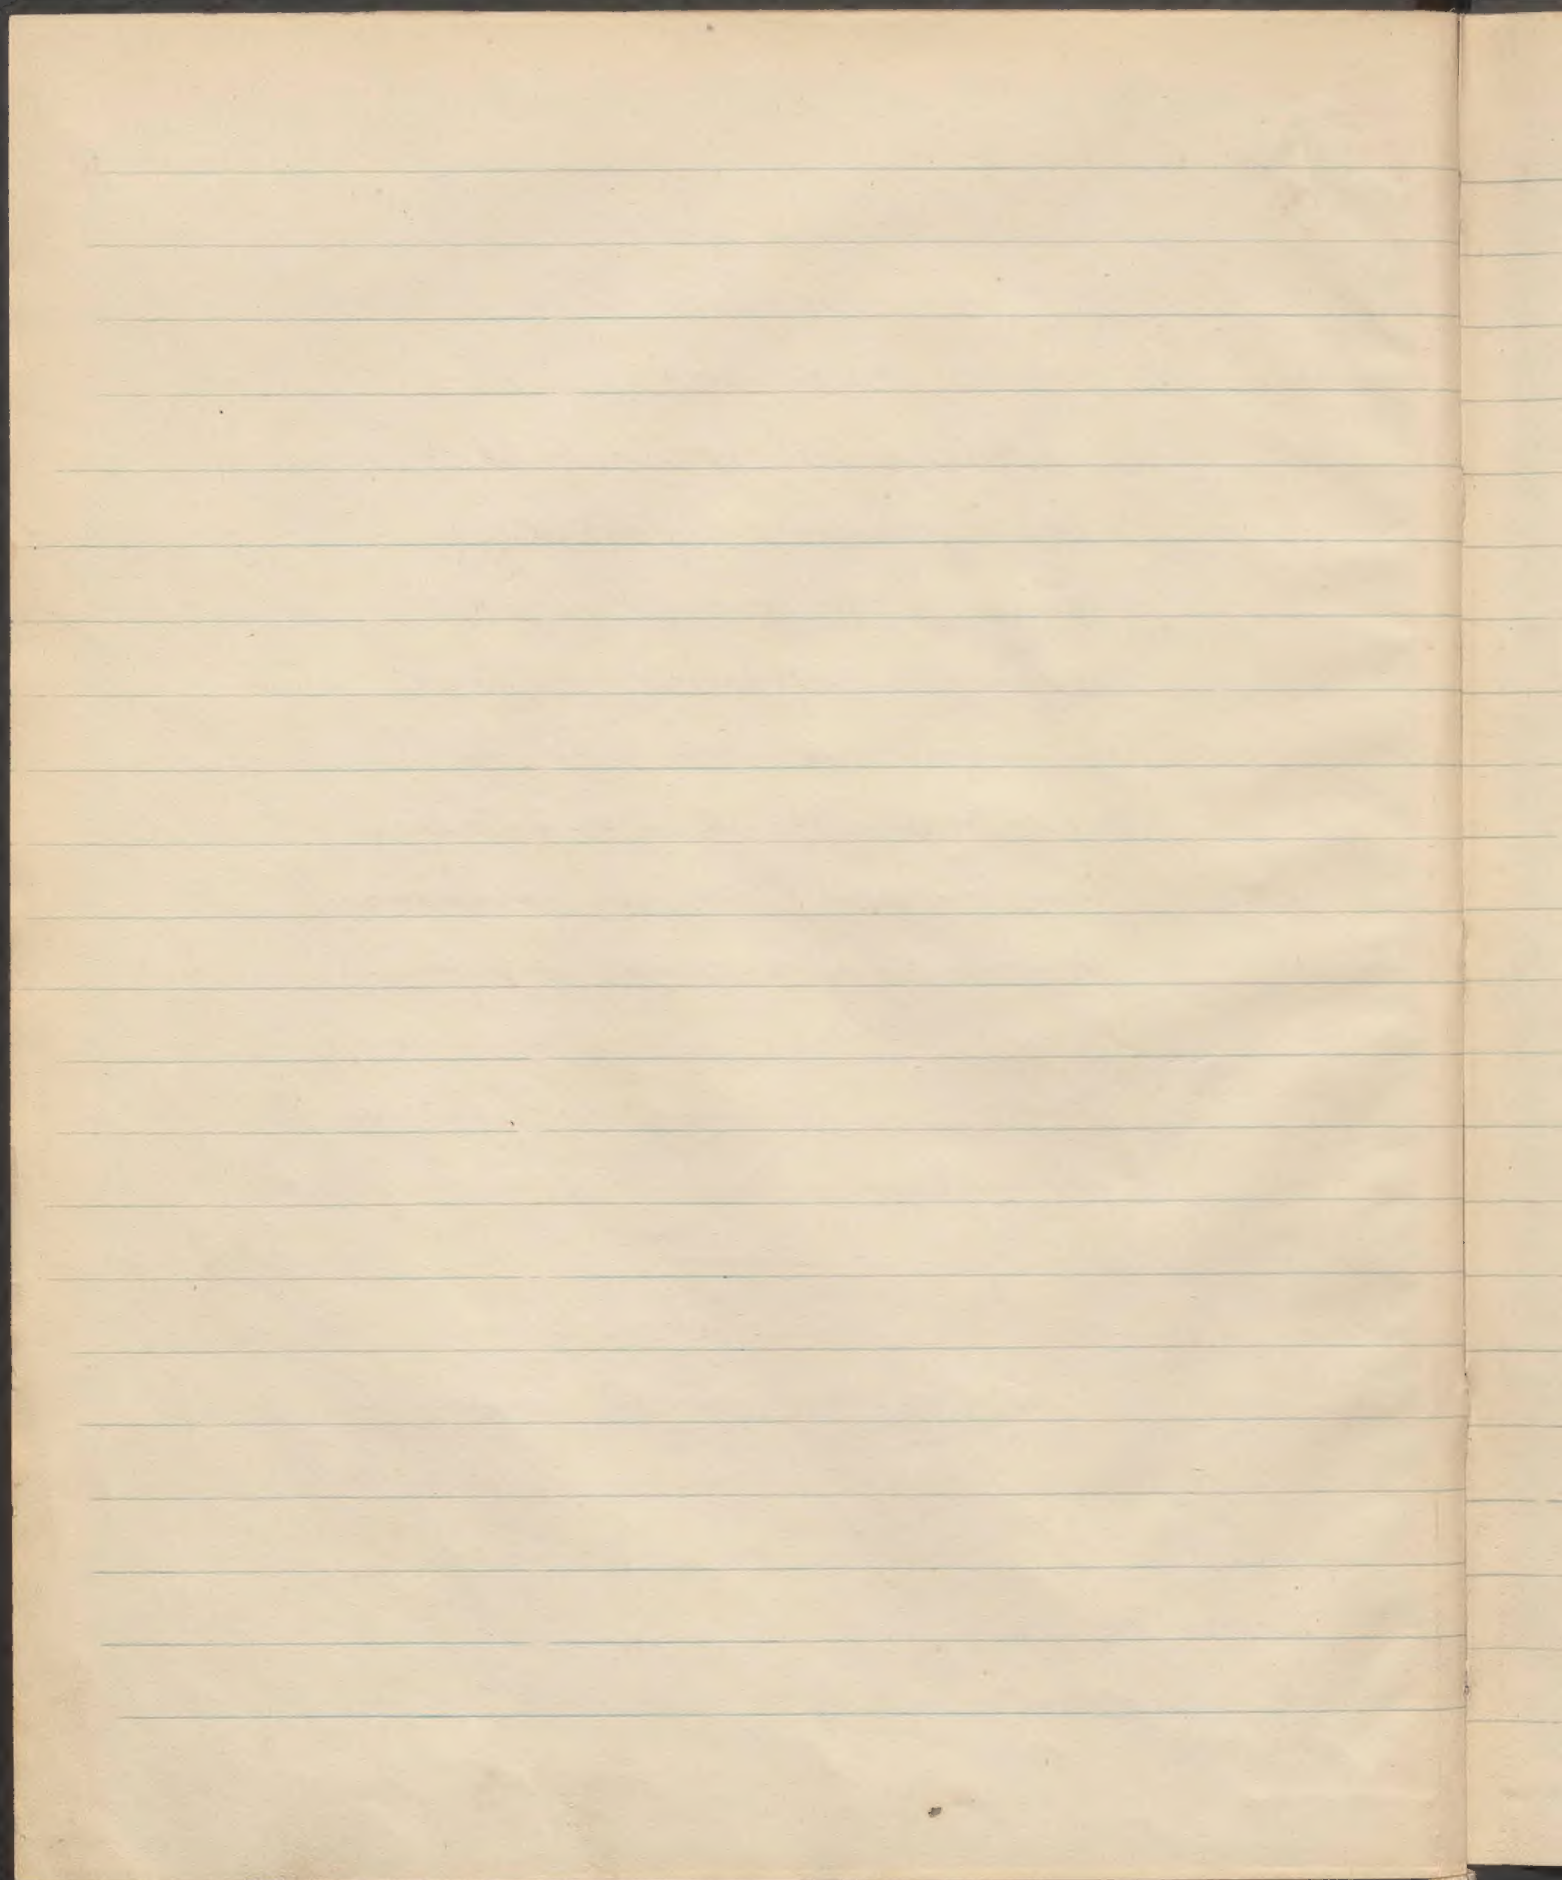

Aby pomógł wam wszyscy zmarłymi być żywi,

Modłami was wami wspierać też zawsze.

Wdzięczni synowie

H. Leopold Janickowski Bernardyn i  
Ferdynand pamięć ich kocha.

1. The first thing I noticed when I stepped out of the plane was the cold. It was a sharp contrast to the warm air inside the cabin. The ground below was a vast, flat expanse of white, stretching as far as the eye could see. The sky above was a pale, hazy blue, with a few wispy clouds scattered across it. The silence was absolute, broken only by the distant hum of the plane's engines and the occasional creak of the landing gear.

My dear Mr. [illegible]

I have just received your letter of the 10th

and am glad to hear

from you again

Sept 17 - Sunday - 7

Went to church at 10 AM. Service was very good. After church we went to the park and had a picnic. The children were very happy.

After lunch we went to the library and borrowed some books. The children were very interested in the new books.

We then went to the store and bought some groceries. The children were very helpful in choosing the items.

After shopping we went to the post office and mailed some letters. The children were very excited to see the postman.

We then went to the bank and deposited some money. The children were very interested in the process.

After the bank we went to the park again and played for hours. The children were very tired but very happy.

We then went to the house and had a big dinner. The children were very happy to eat with us.

After dinner we went to the living room and watched some TV. The children were very interested in the program.

We then went to bed and fell asleep. The children were very tired and fell asleep quickly.

It was a very good day. We all enjoyed it very much. The children were very happy and we were very proud of them.

1. The first of the series of experiments was conducted on the 1st of January 1934. The object of the experiment was to determine the effect of the temperature of the water on the rate of the reaction. The results of the experiment are given in the following table.

Temperature of water (°C)	Rate of reaction (g./min.)
10	0.12
20	0.25
30	0.45
40	0.75
50	1.20
60	1.80
70	2.50
80	3.50
90	5.00

The results of the experiment show that the rate of the reaction increases with the temperature of the water. The rate of reaction is approximately double for every 10°C increase in temperature.
